Clinical anatomy and management of thoracic spine pain

Understanding thoracic spine pain is complex and demands the sharing of ideas and knowledge to improve the management of patients. This text highlights the value of a multidisciplinary approach to the complexity of thoracic spine pain. Contributions from anatomy, pathology, chiropractic, osteopathy, and physiotherapy are presented in a readable format. Each section is written by acknowledged experts and provides a summary of relevant material that leads to an improved understanding of the causes of thoracic spine pain. The book highlights a common approach to mechanical treatment that can be provided by disciplines such as osteopathy, chiropractic, and physiotherapy.

The text is divided into four sections. Section 1 introduces the reasoning behind the text; section 2 introduces clinical neurological, pathophysiological, and biomechanics of the thoracic spine; section 3 discusses diagnoses of thoracic spine pain; section 4 describes possible management protocols.

There is perhaps a disproportionately large section of the book devoted to neuroanatomy and goss pathology, with perhaps a less extensive clinical section than one would hope. This book certainly answers one of the commonly asked questions in manual therapy and that is “What is the difference between chiropractic and osteopathy?”

This book is essential reading for all students of musculoskeletal medicine and also those studying manual therapy of whatever kind. It is indeed a comprehensive review and embraces the more modern multidisciplinary approach to spinal pain. In summary, I would highly recommend the book to anyone remotely interested in the bra strap region!

Naprednost in sport.

“A comprehensive review of the role of nutrition in sport and exercise” is promised at the beginning of the text, and, in my opinion, the promise is delivered.

The editor, Ron Maughan, from University Medical School, Foresterhill, Aberdeen is an established authority in exercise physiology and nutrition, and he has assembled no less than 65 experts (including himself) to produce this work for the IOC and FIMS, which represents volume VII of the Encyclopaedia of Sports Medicine. Every contributor has solid evidence-based medicine and is strongly emphasised throughout, and each chapter has a comprehensive reference list which will usually point you in the right direction if your precise query is not discussed.

Would I buy a personal copy? Even at its very reasonable price, the answer is no. For me, it is more of a reference text than a daily companion. Would I like to see a copy in the paediatric library? A definite yes.

Paediatric exercise science and medicine

Although this book arrived for review during the summer, light, easy beach reading it is not. Its qualities are encyclopaedic rather than Mills and Boon. Each part has between 6 and 12 chapters, written by a variety of international experts and concluding with a neat summary.

It is targeted at a very wide and diverse readership. Only a reviewer will sit down and read the text from cover to cover. Depending on your area of interest, you will feel comfortable in some sections and just dip into others. The section on exercise science is extremely comprehensive, although you will have to look elsewhere for tables of normal values. As a clinician, I was overwhelmed by a lot of the science and looked forward to the paediatric medicine sections. I was not disappointed. Again, it is very comprehensive, dealing with the role of physical activity in health and chronic disease, and the actiology, prevention, and management of sports injuries. I found practical answers to questions commonly posed at outpatient clinics but noted that there is no mention of renal disease or haematological disease, and epilepsy is not discussed. Also, whereas American football and ice hockey feature in the chapter on contact sports, rugby is not included.

Although evidence based medicine is relatively sparse in the field, it is strongly emphasised throughout, and each chapter has a comprehensive reference list which will usually point you in the right direction if your precise query is not discussed.

Would I buy a personal copy? Even at its very reasonable price, the answer is no. For me, it is more of a reference text than a daily companion. Would I like to see a copy in the paediatric library? A definite yes.
World Conference on Women and Sport
16–19 May 2002, Montreal, Quebec, Canada
Further details: Deena Scoretz (secretariat), IWG Secretariat, 15 Eddy Street, 8th Floor, Hull, QC K1A OM5, Canada; tel: +1 604 999 0989; fax: +1 604 956 8019; email: dscoretz@infoserve.net

Kinesiology—New Perspectives. 3rd International Scientific Conference
25–29 September 2002, Opatija, Croatia
Further details: Conference Office, Faculty of Kinesiology, 10,000 Zagreb, Horvancasami zavoj 15, Croatia; tel: +385 1 3658 666; fax: +385 1 3634 146; email: nataljja.babic@if.hr

The Queen’s Golden Jubilee and Post Commonwealth Games BASEM Congress 2002
10–13 October 2002, The Low Wood Hotel and Conference Centre, Inndermure, Cumbria, UK
Keynote lecturers
Professor Stuart M McGill (Canada), will lecture on “Low back exercise: the foundation for building the best programme” and present a workshop on “a programme to enhance spine stability”. Assistant Professor Karim Khan (Canada), will lecture on “Better management of tendinopathies” and “Physical activity and bone health”. Other speakers include: Professor Dr med Hans H Paessler (Germany) lecturing on “Current concepts in knee ligament reconstruction following sports injuries” and “Rehabilitation after cruciate ligament reconstruction”; Mr Peter Hamlyn (United Kingdom), Chairman of the Government Ministerial Working Group Report on Safety and Medicine in Sport, will open and Chair a discussion on progress one year on from the full programme details are available at the web extra section of the BJSM website: www.bjsportmed.com

Further details: Mrs Sue Roberts, BASEM Company Office, 12 Greenside Ave, Frodsham, Cheshire WA6 7SA, UK; tel/fax: +44 (0)1928 732 961; email: basemensfice@compuserve.com Web site: www.basem.co.uk

Sports Medicine of Australia 2002 Australian Conference
12–16 October 2002, Carlton Crest Hotel, Melbourne, Australia
Further details: Prue Robertson, Project Officer, Sports Medicine Australia, PO Box 237, Dickson ACT 2602; tel: +61 2 6230 4650; fax: 61 2 6230 5908; email: prue robertson@sportnet.com

Celebrating 50 years of Orthopaedics in Singapore
13–16 October 2002, Singapore
In conjunction with the 25th Singapore Orthopaedic Association Meeting, 22nd Asian Orthopaedic Association Meeting, 5th Combined Meeting of Spinal and Paediatric Sections—APOA, 7th Meeting of Sports Medicine Section—APOA, 3rd Meeting of Asia-Pacific Orthopaedic Society for Sports Medicine
Further details: 2002 COM Secretariat, c/o Dept of Orthopaedic Surgery, National University Hospital, 5 Lower Kent Ridge Road, Singapore 119074, Republic of Singapore; tel: +65 772 4340; fax: +65 778 0720; email: secretariat@oa.sg.org Web site: http://orthopaedics2002.calendarone.com

BASICS Immediate Care Course
This five day residential course is primarily aimed at those with extensive experience in immediate care, this course will develop and enhance the necessary skills to deal with all medical and other emergencies in pre-hospital medicine.
Further details: BASICS Education Ltd; tel: +44 (0) 870 165 4999; fax: +44 (0)870 165 4949; email: educ@basics.org.uk Web site: www.basics.org.uk

BASICS Immediate Care Course “Top up”
This two day course is for those who would like to attend the final two days of the Immediate Care Course to develop their skills.
Further details: BASICS Education Ltd; tel: +44 (0) 870 165 4999; fax: +44 (0)870 165 4949; email: educ@basics.org.uk Web site: www.basics.org.uk
The 5th Asian Federation of Sports Medicine Congress  
24–27 October 2002, Seoul, South Korea  
Further details: AFSMC 2002 Seoul Secretariat, Hanjim Travel Service Co Ltd, (c/o Young CHANG) Marine Center New Bldg 9th Fl, #51, Sogong-dong, Chung-gu, Seoul 100–770, South Korea; tel: +822 726 5535, fax: +822 778 2514, email: ychang@kaltour.com  
Web site: http://www.afsmc2002.or.kr

Australian College of Sports Physicians (ACSP) 2002 Conference in conjunction with the New Zealand Sports Medicine Conference  
30 October–3 November 2002, Christchurch, NZ  
Keynote speaker will be Assistant Professor Karim Khan from Vancouver, Canada. Call for abstracts will be announced in early 2002  
Further details: Rob Campbell; email: rcampbell@sportsmed-nz.co.nz  
Web site: www.acsp.com.au

BASICS Refresher course  
28–29 November 2002, Madingley Hall, Cambridge, UK  
This two day course is directed at previous participants on the pre-hospital emergency care and immediate care courses. The aim is to maintain and update skills, incorporating the latest developments in pre-hospital care.  
Further details: BASICS Education Ltd; tel: +44 (0) 870 165 4999; fax: +44 (0)870 165 4949; email: educ@basics.org.uk  
Web site: www.basics.org.uk

2nd World Congress of Science and Medicine in Cricket  
4–7 February 2003, University of Port Elizabeth, South Africa  
Further details: Dr Richard Stretch, University of Port Elizabeth, PO Box 1600, Port Elizabeth 6000, South Africa; tel: +27 41 5042584; fax: +27 41 5832605; email: sparas@upec.ac.za

Vth World Congress on Science & Football  
April 2003, Lisbon, Portugal  
Further details: Dr J Cabri; email: Jcabri@fmh.ultl.pt  
Web site: http://www.fmh.ultl.pt/wesf

3rd Québec International Symposium on Cardiopulmonary Rehabilitation Evidence Based Interventions: Science to the Art of Cardiopulmonary Rehabilitation  
11–13 May 2003, Québec City Convention Center, Québec, Canada  
Call for abstracts deadline is 1 November 2002. The abstract submission form and complete programme can be printed from the web site.

Further details: email: Jean.Jobin@med.ulaval.ca  
Web site: www.ulaval.ca/symp-rehab

The LTA Sports Science and Sports Medicine Conference  

6th International Symposium “In Vivo Body Composition Studies”  
3–5 October 2002, Villa Mondragone, Tor Vergata University, Rome, Italy  
Submissions are welcome on a variety of topics on body composition until 15 May 2002. Instructions on submitting abstracts are now available on the congress web site: www.uniroma2.i/eventi/BodyComp2002/

Australian Conference of Science and Medicine in Sport  
12–16 October 2002, Carlton Crest Hotel, Melbourne, Australia  
Keynote speakers  
Dr Bill Evans, Director of the Nutrition, Metabolism, and Exercise Division in the Donald W Reynolds Department of Geriatrics and Geriatric Research, University of Arkansas School of Medical Sciences.  
Dr Glenn Singleman, an expedition doctor and documentary filmmaker. He has accompanied climbing and research expeditions to extreme locations in Antarctica, Nepal, Pakistan, Russia, Peru, Patagonia, and Irian Jaya. He is a consultant in high altitude and extreme environment medicine.  
Professor Tom Rowland, is a Professor of Pediatrics, Tufts University School of Medicine, Boston. He has specialist expertise in the area of paediatric cardiology and type 1 diabetes and performance limitations of children and youth.

English Institute of Sport  
The construction has started on the English Institute of Sport adjacent to Sheffield’s Don Valley Stadium. This new multi sports facility will provide a regional base for the delivery of services to athletes within the English Institute of Sport (EIS) network and provide a world class training facility. The facility will contain:  
• A large strength and conditioning area, state of the art sports science and sports medicine facilities, recovery areas for athletes, a hydrotherapy pool, and a flotation tank  
• National Indoor Athletics Centre with a six lane indoor track and 132m straight sprint, a throwing area, and 1500–2000 seat capacity  
• Table tennis centre  
• Regional judo facility  
• National netball centre  
• Badminton performance centre  
The project is scheduled to open in spring 2003.
