XXIV

# FIMS WORLD CONGRESS OF SPORTS MEDICINE

The XXIV th FIMS World Congress of Sports Medicine will be organized by the FIMS World Congress 1990 Foundation, initiated by the Netherlands Association of Sports Medicine (VSG)

Keynote on SPORTS  
Keynote on MEDICINE  
Keynote on HEALTH

Meet the expert

Free communications on  
cardiology, orthopaedics,  
physiology and psychology

Symposia  
Paneldiscussions  
Instructional courses

Exhibition, Posters and Video

## General daily outline

Each day 3 keynote lectures\* on sports, health and medicine will be given. Selected (free) communications in parallel sessions are organized on cardiology and related internal diseases, orthopaedics, physiology and biomechanics, and behavioural sciences.

In the afternoon symposia (aimed at knowledge transfer), panel discussions (aimed at consensus) and instructional courses (aimed at specific skills) are organized.

Naturally, the organization also provides attractive social events in the warm atmosphere of Dutch hospitality.

# The New CYBEX® 340

## Extremity Testing and Rehabilitation System

*Real-time torque display screen*

*Exercise biofeedback screen*

The Cybex 340 offers a new standard in Isokinetic Technology. The heart of the 340 is a powerful computer which allows patient data storage and quick computerised interpretation of all test results.

The Cybex 340 can be used for specific joint testing and or general rehabilitation. There are eighteen test and exercise patterns each with a standardised format or individual patient protocols can be programmed.

The test results are stored in both graphical and numerical form allowing quick comparisons between either bilateral tests or progress reports on one joint. All test data can also be printed in colour.

This computerised update to Cybex's already proven accuracy and reliability combines to offer safety, versatility and ease of operation for both therapist and patient.

*For further technical information, published bibliography or an early demonstration please contact:*
