CORRESPONDENCE

Anstey College of Physical Education,
Sutton Coldfield,
Warwickshire.

The Editor, British Journal Sports Medicine.

Dear Sir,

**RESEARCH GRANT FOR ANSTEY COLLEGE**

The Leverhulme Trust has awarded a substantial three-year grant to enable the college to investigate **Physical Education And The Immigrant Child**.

The Trustees regard this project as an experimental one, introducing students to research as part of their curriculum. This major project is a logical extension of the policy of encouraging research by teachers and individual students, which Anstey College has pursued for some time.

The College invites researchers in this field to correspond with The Directorate of the project at Anstey College of Physical Education, Chester Road, Sutton Coldfield, Warwickshire.

Yours faithfully,

Derek H. Cherrington,
Co-Director of the Research Project.
