Volume 51 Issue 8 | BJSM April 2017

Warm up

623 Sport Medicine at its Peak
E L Cruz

Editorials

624 Tomorrow’s doctors want more teaching and training on physical activity for health
S A Osborne, J M Adams, S Fawkner, P Kelly, A D Murray, C W Oliver

625 Exercise medicine education should be expanded
M J Joyner, F Sanchis-Gomar, A Lucia

626 β-alanine efficacy for sports performance improvement: from science to practice
G P Nassis, B Sporer, C G Stanulis

628 Paradoxes and personalised medicine: from preseason to post-diagnosis
J S Thornton

Infographic

629 Infographic: Tomorrow’s doctors want to learn more about physical activity for health
H Scott, J Adams, S Osborne, E Jenkins, C W Oliver, G Baker, N Momme, P Kelly, S Fawkner

Education

630 A higher sport-related reinjury risk does not mean inadequate rehabilitation: the methodological challenge of choosing the correct comparison group
I Shrier, M Zhao, A Pické, P Stochová, R F Steele

Reviews

636 Personalising exercise recommendations for brain health: considerations and future directions
C K Barha, L A Gaita, L S Nagamatsu, K J Erickson, T Liu-Ambrose

640 Exercise-induced biochemical changes and their potential influence on cancer: a scientific review
R J Thomas, S A Kenfield, A Jimenez

Original articles

645 Training load—incurred paradox: is greater preseason participation associated with lower in-season injury risk in elite rugby league players?
J Winth, T J Cabrell, D Ferris, K M Khan

651 Does physical activity moderate the association between alcohol drinking and all-cause, cancer and cardiovascular diseases mortality? A pooled analysis of eight British population cohorts
K Perera, A Bauman, N Johnson, A Britton, V Raung, E Stamatakis

658 β-alanine supplementation to improve exercise capacity and performance: a systematic review and meta-analysis
B Saunders, K Elliott-Sale, G G Antoh, P A Swinton, E Delan, H Roche, C Sale, B Guidano

670 Effect of exercise training on C-reactive protein: a systematic review and meta-analysis of randomised and non-randomised controlled trials
M V Fedewa, E D Hathaway, C L Ward-Ritacco
