Warm up

705
Treating the patient in front of you and the power of language: integrating research into effective clinical practice
S Aspinal

Editorial

707
Knee arthroscopy: evidence for a targeted approach
R F LaPrade, T Spalding, J R Murray, J Chabla, M R Safran, C M Larson, S C Fackett, R von Bormann, R H Brophy, R Maestu, A J Krych, P Firer, L Engelbrecht

Consensus statement

709
Acute glycaemic management before, during and after exercise for cardiac rehabilitation participants with diabetes mellitus: a joint statement of the British and Canadian Associations of Cardiovascular Prevention and Rehabilitation, the International Council for Cardiovascular Prevention and Rehabilitation and the British Association of Sport and Exercise Sciences
J P Buckley, M Riddell, D Meller, R M Bracken, M-K Ross, A LaGereche, P Poirier

Reviews

721
School-based interventions modestly increase physical activity and cardiorespiratory fitness but are least effective for youth who need them most: an individual participant pooled analysis of 20 controlled trials

Comparative effectiveness of physical exercise interventions for chronic non-specific neck pain: a systematic review with network meta-analysis of 40 randomised controlled trials
R Mj de Zoete, N R Arntfield, J H McAusley, K Chen, M Sterling

Original research

743
It is never too late to start: adherence to physical activity recommendations for 11–22 years and risk of all-cause and cardiovascular disease mortality. The HUNT Study
T Molvold, E S Skarpsno, B Moe, T I L Nilsen
Time-efficient intervention to improve older adolescents’ cardiorespiratory fitness: findings from the ‘Burn 2 Learn’ cluster randomised controlled trial

Infographics
759 Infographic. ISPAH’s Eight Investments That Work for Physical Activity: infographic, animation and call to action
The International Society for Physical Activity and Health

761 Infographic. When is abnormal normal? Reframing MRI abnormalities as a normal part of ageing
A G Culvenor, M Ferraz Pazzinatto, J J Heerey

Electronic page
e5 Correction: What are network meta-analyses (NMAs)? A primer with four tips for clinicians who read NMAs and who perform them (methods matter series)
