

Supplementary material - Appendix 6: Additional wear time criteria used in the sensitivity analysis

Sensitivity analysis were conducted for the following four additional wear time criteria:

- 1) ≥ 16 hours over any four days (irrespective of week/weekend);
- 2) ≥ 10 hours for 4 days (including at least one weekend day);
- 3) ≥ 10 hours over any four days (irrespective of week/weekend);
- 4) A minimum wear criteria of 1 day for 10 hours but with individuals weighted by the number of valid days with a minimum of 10 hours wear.
