Contents

Volume 56 Issue 7 | BJSM April 2022

Warm up
361 Moving forward together for maximum impact: research in sport and exercise medicine demands a team effort!
J S Thornton, I De Groot, C Campbell

Editorials
363 From study to scalp: knowledge translation for research in orthopaedic surgery
H Marmara, A Keihan, A MJ Geggord, J S Thornton, D M Bryson

365 Prenatal physical activity paradox: occupational versus leisure-time physical activity
C Cai, M D H Davenport

367 Preventing the ‘24-hour Babel’: the need for a consensus on a consistent terminology scheme for physical activity, sedentary behaviour and sleep
R S Falck, J C Davis, L Li, E Stamatelakis, T Liu-Ambrose

Consensus statement
369 Exercise medicine and physical activity promotion: core curricula for US medical schools, residencies and sports medicine fellowships: developed by the American Medical Society for Sports Medicine and endorsed by the Canadian Academy of Sport and Exercise Medicine
J Aoj, J S Thornton, S Czark, C Miles, M Nayak, M Novak, M Stovaček, J L Zaremski, J Drezner

Original research
365 Multi-strategy intervention increases school implementation and maintenance of a mandatory physical activity policy: outcomes of a cluster randomised controlled trial
N Nathan, A Hall, N McCarthy, R Sutherland, J Wiggers, A E Bauman, C Rissel, P J Naylor, A Craddock, C Lane, K Hope, B Elton, A Shoesmith, C Oldmadow, P Reeves, K Gilham, B Duggan, J Boyer, C Leachtholm, I Wolfenden

376 GRANADA consensus on analytical approaches to assess associations with accelerometer-determined physical behaviours (physical activity, sedentary behaviour and sleep) in epidemiological studies
J H Migueles, E Aadland, I B Andersen, J C Brond, S F Chassin, B H Hansen, K Konstabel, O M Kvalheim, D E McGregor, A V Rowlands, S Sabia, T Van Hees, R Walmsley, F B Ortega, External review group

394 Effectiveness of a lifestyle weight-loss intervention targeting inactive former elite athletes: the Champs4Life randomised controlled trial
