BJSM Conflict of Interest (COI) Policy

This policy applies to editors, associate editors, and reviewers to ensure a fair and transparent process for evaluating manuscript submissions.

The following COIs preclude acting as the handling editor/AE or serving as a reviewer:

- You are from the same institution as one or more of the manuscript's authors.
- You are currently an adviser, mentor, or direct supervisor of one or more of the authors.
- You do not believe you can provide an objective and unbiased assessment of the work based on personal or professional relationships or competing research with the authors.
- You stand to gain financially (e.g., industry relationship) from publication of the paper.

Questions regarding a potential COI should be directed to the Editor-in-Chief or assigning Editor of the paper.
